Overview

Strategic Selling® helps organizations develop comprehensive strategies to win sales opportunities. The program delivers a selling process and action plan to successfully sell solutions that require approval from multiple decision makers in the customer’s organization.

Strategic Selling® provides visibility into sales opportunities, documenting plans with the program’s Blue Sheet. This involves first identifying all key players in the customer’s organization, understanding each player’s degree of influence and their reasons for buying, and uncovering essential information. Salespeople and organizations will be equipped to evaluate their competitive position, address the business and personal motives of each decision maker in the client organization, and differentiate their company by leveraging its unique strengths.

Strategic Selling® significantly improves the odds of winning complex sales opportunities. It gives organizations a common process and language for pursuing sales opportunities and criteria for allocating resources to determine when to walk away from resource-intensive deals with low probabilities of success. The key to success is learning how to focus time and energy on those opportunities most likely to become profitable, long-term customers.

Strategic Selling® may be the right solution if your company is trying to:

- Secure approval from multiple decision makers.
- Navigate the internal bureaucracy of customers and prospects.
- Gain more visibility into the status of important sales opportunities.
- Allocate resources appropriately for large sales.
- Improve team collaboration to pursue strategic opportunities.
- Forecast revenue with greater accuracy.
- Increase close rates for opportunities with long sales cycles.

Multiple Decision Makers

In complex selling environments, where multiple people will influence the outcome of a sale, identifying and accessing these decision makers is an essential part of a winning strategy. World-Class Sales Organizations are significantly more likely to recognize the importance of these individuals in securing a sale.

In a large deal, we always gain access to key decision makers.

“I was able to immediately put the methodology to use in developing a sales strategy for a significant opportunity. Using Strategic Selling®, I was able to clearly assess the customer’s needs and tailor a solution that addressed those needs in a win-win formula.”
